ENERGY

FIXED ENERGY PRODUCTS

Count on TriEagle

- From 3 months to 3 years, our fixed prices give you budget certainty and shield you from market volatility and short-term fuel price fluctuations. And, because we value our customers, there are no hidden fees or extra charges. Fixed price products from TriEagle Energy are just that – fixed – your energy price stays the same through the term of your agreement no matter what the market does.
- With natural gas prices at some of the lowest levels in years, the question is not when to act, but for how long. Your TriEagle account manager will work with your business to determine how we can help set and improve your energy budget.

NATURAL GAS SETTLE 2007-2017

Chart: After historic highs in mid-2008, Natural Gas prices moderated in 2009-2010, and continued to remain low in 2011 to mid-2012. Recent trends have been bullish and winter weather pushed near-term NG above \$5.00 in Feb 2014, only to see it begin to fall off to below \$4.00 in summer 2014, and well below \$3.00 for early 2015.

TriEagle is a proud member of the Crius Energy family of brands.
